blink

LEARNING a platform provider for Klett USA, Inc.

Joining a Classroom - New Student

Setting up a new account will bring you automatically to the main menu.

Click on **My classroom** to view your section. You will see the following message.

You must wait for your teacher's confirmation to proceed to the classroom functions.

Note: You will be able to see a demo version (the first 3 chapters) of each book even prior to your teacher's confirmation. To have full access to your books, you must activate a valid **Book code**.

Add Content (Books)

Once you have registered with a Class code, you must activate a **Book code** to see the entire product that your class will be using. A Book code must be purchased from the [publisher](#) or a bookstore. Once you have a Book code, please follow these steps:

1. Select **Subjects**.
2. Click on the **add books** button in the toolbar on the right side of the screen.
3. Enter the valid **Book code** (license) for each book you will be using this semester.

The screenshot shows the blink learning interface. At the top, there's a green header with the 'blink' logo and navigation icons for Subjects, My classroom, Grades, and My messages. Below this, a 'Books' dropdown menu is open, showing 'My books' with a 'Books (1)' indicator. A book cover for 'Netzwerk A1 Kursbu..' by Ernst Klett Sprachen is visible. An 'Add books' button is highlighted in the toolbar, and a callout box shows the 'Add books' dialog box. The dialog box has a green border and contains a padlock icon, the text 'In order to see your content, you must activate a valid licence.', an input field labeled 'Enter the licence', and a 'Send' button.

Pro Tip: write your **Book code** somewhere safe, e.g., in a folder or notebook. This is useful should you need account support in the future.

Review

You should have

1. created an account with a **Class code** given to you by your teacher.
2. activated a valid **Book code** for each product you will be using this semester. Book codes can be purchased from www.klett-usa.com or from select bookstore partners.

Viel Spaß beim Deutschlernen! Have fun learning German!
