

Login to your BlinkLearning account again

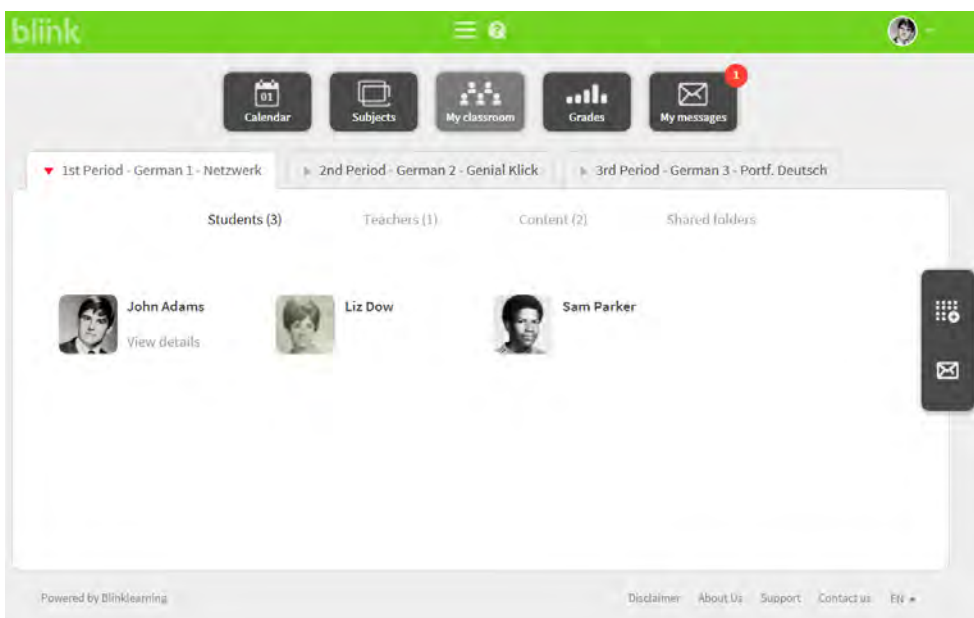

Go to www.blinklearning.com. Click on the **Login** button.

Help

If you forgot your username or password and the recovery link does not work, please contact help@blinklearning.com. You must provide them with a username or ideally your previous **Book code**.

Joining a new classroom

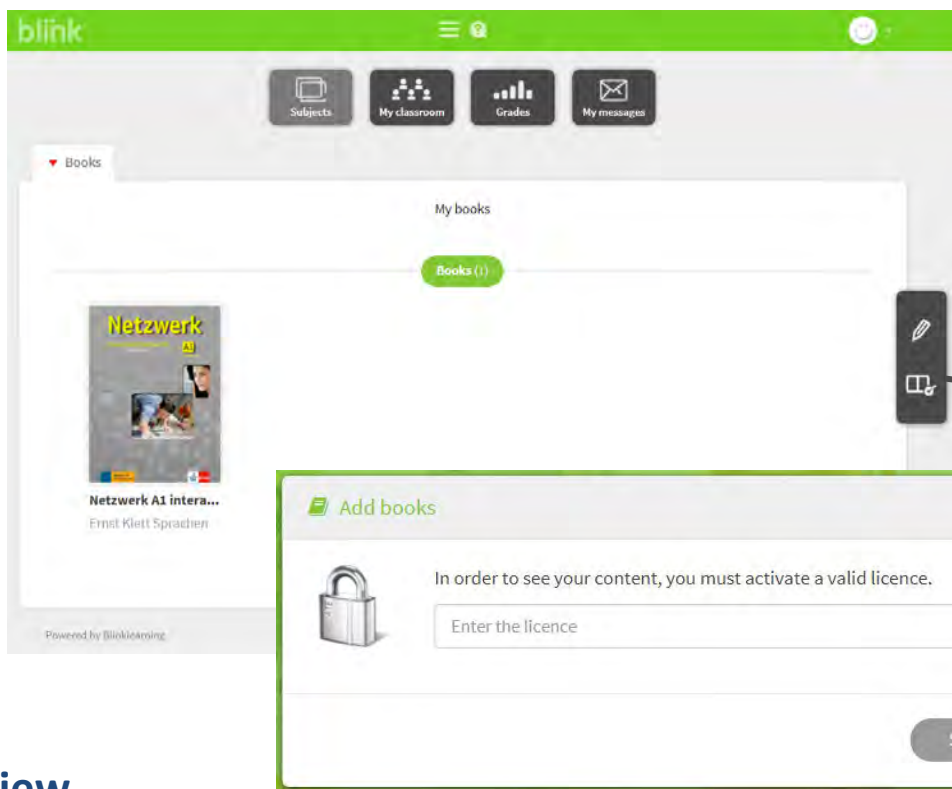

In **My classroom**, click **Add class code**.

Add a new Class code provided by your teacher.

Add New Books

To use **Blink Learning** properly, you must have activated a **Book Code** for each product that is assigned to your online classroom. All Book Codes are valid for 14 months after activation. You may need to **reactivate** a new Book Code for a license that has expired. New Book Codes must be purchased from at www.klett-usa.com. Once you have your Book Code in hand, follow these steps to activate it:

1. Select **Subjects**. You should see any of your old books.
2. Click on the **add books** button in the toolbar on the right side of the screen.
3. Enter the valid **Book Code** (license) for any books you will need this term.

Pro Tip: write your **Book code** somewhere safe, e.g., in a folder or notebook. This is useful should you need account support in the future.

Review

You should have

1. added a new **Class code** given to you by your teacher.
2. activated a valid **Book Code**. Book codes can be purchased from www.klett-usa.com.

Viel Spaß beim Deutschlernen! Have fun learning German!

Support

If you forgot your username and/or password and the recovery link doesn't work, contact help@blinklearning.com. Provide them with your **Book code**.
